Syllabus

1. Programmer Conduct

1. My Computer
2. Backups | Anti-Virus
3. Git
4. Effort
5. Ethics

2. C# Basics

- Programming Environment
- .Net Framework, CLR, MSIL
- Program, Library, Project, Solution
- Compiling | Interpreting | Debugging
- Code Quality: CLS Specification

3. C# Fundamentals

1. Variables, Constants
2. Data Types
3. Operators
4. Expressions and Statements
5. Memory Management

4. Object Oriented Programming

1. Thinking Objects
2. Classes and Objects
3. Inheritance
4. Abstraction & Encapsulation
5. Polymorphism

Syllabus

5. C# Advanced (I)

1. Existing Classes - Functions and Methods
2. Exceptions Handling
3. Collections
4. Generics

6. C# Advanced (II)

1. LINQ
2. Lambda Functions
3. Asynchronous programming
4. Software unit and integration testing with XUnit

7. C# Programming

1. Design Patterns
2. Project

- Teams

Requirements

- LP1 and Algorithms!
- Visual Studio ≥ 10
- Git, GITLAB , GITHub, GitKraken, SourceTree, etc...
- No phones in class!

Assessment

- *Continuous Assessment: from **September 20** to **January 15***

$$NF = 40\% * CT + 60\% * CP$$

- *CT: Theoretical Component = Max(Tests & Exam)*
- *CP: Practical Component = Practical work*

$$CP = 50\% * C + 50\% * O$$

- *C: Code = Practical work font code and report*
- *O: Oral = Practical work oral defense/presentation (individual)*
- *Minimum grade: 10 for CT and CP - 10 for C and O*

The evaluation by Exam will only correspond to the theoretical part of the discipline, i.e., the student still has to do the practical component.

Assessment

- Only students who have obtained a classification in the practical component equal to or higher than 10 values will be admitted to the appeal exam (exams season, special season or exceptional season).
- The practical component is not allowed to be carried out (or improved) outside the continuous assessment period.

Practical Work

- Mandatory!
- Individual or group of two people
- Delivery via Git or Moodle
- Report required
- Individual oral defense/presentation
